

## Green Landscaping subsidiary secures renewed contract from Ulricehamn Municipality

**Green Landscaping's subsidiary Tranemo Trädgårdstjänst has won a public procurement process for outdoor maintenance services in the municipality of Ulricehamn. Through the renewed contract, Tranemo Trädgårdstjänst will maintain the municipality's green areas for another four years.**

Tranemo Trädgårdstjänst was awarded the contract following a public procurement process. The new assignment will start on 1 April 2019 and run for four years. The contract has a total value of approximately SEK 40 million, with a possibility to extend it for another 2 years.

"It feels great to have received continued trust from the municipality. We have built a stable team of employees with around 10 people over the past years to be able to deliver our services on a long-term basis in Ulricehamn. We are now looking forward to continuing providing our services and to further strengthen our relation to the municipality over the coming years", says Roger Carlsson, CEO of Tranemo Trädgårdstjänst.

The contract comprises outdoor maintenance services, such as landscaping, winter maintenance and continuous repairs and light construction works. Since 2009, Tranemo Trädgårdstjänst has been responsible for the outdoor environment maintenance around the municipality's properties, and since 2015, it has also been responsible for the maintenance of the municipality's parks and outdoor environments. The contract with the municipality of Ulricehamn also comprises the green areas of the municipal real estate company Stubo.
