

JE Mark to build new activity park in Österåker Municipality

Green Landscaping's subsidiary JE Mark has won a public tender in Österåker Municipality, north of Stockholm. The assignment involves the construction of a new activity park in Åkersberga.

JE Mark won the contract in a public procurement and the production will start in August. The contract value amounts to slightly more than SEK 13.8 million. The area covers approximately 4,700 square meters with a playing ground of 2,000 square meters. Österåker Municipality wants to develop the playing ground into an activity park with a climbing-wall, outdoor gym facilities, a basketball court and play areas. In addition, the contract includes an option for the municipality to order a reconstruction of the Skånsta playground.

"We are happy to have received the trust to carry out another assignment for Österåker Municipality. This is one among several exciting landscaping assignments. As an example, we completed a part of Österåker's new city park along the Åker Canal last year", says Jan Eriksson, CEO of JE Mark.
